Preface

The objective of publishing the *Southwestern Economic Review (SER)* and the *Southwestern Economic Proceedings, Selected Papers*, is to promote the goals of our organization, *Southwestern Society of Economists*, and involve the academic environment of our discipline. This year will be the seventh year the *Review* and the *Proceedings* of the *Southwestern Society of Economists* were published by the College of Business at Arkansas State University. Promoting the publications of our organization is an honor that my college and I cherish.

The continued success of the *Review* has been the result of the efforts of a number of dedicated people. The extremely demanding job of reviewing the papers submitted to this journal has been ably performed by a number of reviewers who will remain anonymous to the authors of the paper, but heroes and saviors to me. In addition, special thanks should go to the College of Business, the Printing Services and Publications Departments at Arkansas State University, to the Co-Editor Dan Marburger and to my secretary, Tami Freeman for assisting with and supporting the publication of the *Review*. I would like to thank the unknown workers behind the publication of this volume – the work study students assigned to my office. We hope this issue of the *Review* will promote and advance our organization to new education and professional horizons.

Your support and consideration of the *Review* will be greatly appreciated. Let us hope that the new millennium will be the beginning of new challenges and achievements and our *Review* will continue to be the academic crown of our association.

John S. Kaminarides
Editor-in-Chief
*Southwestern Economic Review*
